

Please amend the title to read:

METHODS FOR THE TREATMENT OF NEOPLASTIC DISORDERS WITH  
ANTI-CAVEOLIN AGENTS

In the Specification please add the following amended paragraphs:

On page 1, immediately after the title of the invention, please add:

This application is a continuation of copending application USSN 10/151,055, filed May 21, 2002, which is a continuation of copending application USSN 09/797,969, filed March 5, 2001, which is a continuation of USSN 09/186,184, filed November 5, 1998, now U.S. Patent No. 6,252,058, which claims priority of US Provisional Application Serial No. 60/064,351, filed November 5, 1997.

On page 24, lines 20-29, please substitute the following paragraph:

Another embodiment of the invention is directed to a kit or diagnostic ~~[[acid]]~~ aid for screening biological samples for detection of metastasis~~[[,]]~~ or neoplasia. ~~[[or]]~~ The kits comprising sequences isolated according to the methods of the invention and reagents and materials useful in such kits, such as, for example, buffers, salts, preservatives, and carriers, all of which are well known to those of ordinary skill in the art. Kits are useful for the analysis of tissues to screen those for the determination of normal, nonmalignant, neoplastic or malignant cells. Kits may comprise additional reagents useful for the extraction of nucleic acids from a tissue sample. Reagents for analyzing the nucleic acid extracted from a tissue sample such as polymerase chain reaction reagents and Southern blot reagents may also be included.
